

# A Greener Town

Yesterday, one of the many parks that were on construction in our town was finished and a inaguration ceremony took place, many people attended and everyone was very exited to explore and enjoy this beautiful park, the Mayor said, “This community has done some much for us and this town, so we wanted to give back some of that support with this new park for everyone to enjoy.”

---

## First Impressions

We asked the citizens what's their opinion of the new park and what do they expect for the years to come, “It’s a very nice park” says an old lady, “I like the flowers”, says a boy, “It's really nice that the mayor cares about our community and does stuff like this”, said an old man. Overall, people really enjoyed this new park and we hope the next one is as nice as this one.
